SUTHIDA TANGCHAINAVAPHUM's Top Five Clifton StrengthsFinder THEME

7 Jan 2021

Your Signature Themes

The Clifton StrengthsFinder

As you may know, the Clifton StrengthsFinder measures the presence of talent in 34 categories called "themes." These themes were determined by Gallup as those that most consistently predict outstanding performance. The greater the presence of a theme of talent within a person, the more likely that person is to spontaneously exhibit those talents in day-to-day behaviors. Focusing on naturally powerful talents helps people use them as the foundation of strengths and enjoy personal, academic, and career success through consistent, near-perfect performance.

Below are my top five themes of talent, ranked in the order revealed by my responses to the Clifton StrengthsFinder.

How well do you think these themes describe me?

Strategic

People who are especially talented in the Strategic theme create alternative ways to proceed. Faced with any given scenario, they can quickly spot the relevant patterns and issues.

Relator

People who are especially talented in the Relator theme enjoy close relationships with others. They find deep satisfaction in working hard with friends to achieve a goal.

Focus

People who are especially talented in the Focus theme can take a direction, follow through, and make the corrections necessary to stay on track. They prioritize, then act.

Competition

People who are especially talented in the Competition theme measure their progress against the performance of others. They strive to win first place and revel in contests.

Activator

People who are especially talented in the Activator theme can make things happen by turning thoughts into action. They are often impatient.
